

## Advice & Vices

Chelsea Wolfe

What's the use in wasting time  
When we've finally found a home  
Everybody's feeling fine  
What's the use in wasting time

Cause I never listen to my own best advice,  
Like one thing leads to another  
Like one heart bleeds for another

And everybody wants what they can't have

You told me your best advice  
You said stop and let it die  
You told me your best advice  
Don't you waste it all at once
