

Heart Shaped World

Chely Wright

Columbus said the world was round
Back when everyone said it was flat
Just between me and you and the man in the moon
Baby, it ain't anything like that

'Cause were living in a heart shaped world
Our head in the clouds, but our feet on the ground
Yeah, we're living in a heart shaped world
Don't you know baby, love makes the world go 'round

Now, satellite pictures sent back to earth
Shows a big, blue ball floatin out in space
We've got a vision, yeah, and we're on a mission
To tell the whole planet it ain't that way

'Cause were living in a heart shaped world
Our head in the clouds, but our feet on the ground
Yeah, we're living in a heart shaped world
Don't you know baby, love makes the world go 'round

Don't you know baby, love makes the world go
Don't you know baby, love makes the world go 'round
