

# Never Love You Enough

Chely Wright

If all of my life I try and I try  
Baby I could never show you  
All this love I have inside  
'Cause every day when we wake  
I look deep into your eyes I realize

I could kiss you in the rain forever  
Turn all of your pain to pleasure  
Fill up all your days with sunlight  
Make the passion last every night  
Give you my every possession  
Make you my only obsession  
Climb up to the sky and pull down all the stars above  
But I could never love you enough

If I could have one wish it would just be this  
That I could take you to my soul  
And show you all the love there is  
This never ending sea deep inside of me  
There's no stopping it baby even if

I could kiss you in the rain forever  
Turn all of your pain to pleasure  
Fill up all your days with sunlight  
Make the passion last every night  
Give you my every possession  
Make you my only obsession  
Climb up to the sky and pull down all the stars above  
But I could never love you enough

No matter what I do  
It's never as much as I want to  
Baby it could never be enough

I could kiss you in the rain forever  
Turn all of your pain to pleasure  
Fill up all your days with sunlight  
Make the passion last every night  
Give you my every possession  
Make you my only obsession  
Climb up to the sky and pull down all the stars above  
But I could never love you enough
