

What If We Fly

Chely Wright

Reasons

We've got a million
To stop taking chances
And start playing it safe

Memories

Of old love can haunt you
I should be scared to death
But I can't walk away

'Cause what if we fly

What if we fly

And dive off the edge of the end of the world as we know it

What if we fly

Have faith enough to think fate might just know where we're going

What if the arms of the wind carry us to the place

We never could find

Yes we might fall

But what if we fly

Answers

They don't come easy

I don't know what's wrong anymore

But I know when it's right

Only a dreamer

The truest believer

Can let the chains fall to the ground

And take to the sky

'Cause what if we fly

What if we fly

And dive off the edge of the end of the world as we know it

What if we fly

Have faith enough to think fate might just know where we're going

What if the arms of the wind carry us to the place

We never could find

Yes we might fall

But what if we fly

I know we might fall

But what if we fly
