

# Like An Infection

## Chemical Vocation

I've been waiting for a chance  
Been hoping some words can be erased  
But some are ment to stay  
As we grow up we learn

That the world is cruel  
For all of those nights  
You left me all alone  
And all of the things you said is up to you

You breed just like an infection  
And you stay forever  
And time is running out  
It's time to say goodbye

Feels like I'm stuck under water  
Keeps pulling me under  
My time is running out  
This really means goodbye

I've tried to keep your head above  
The surface for too long  
Now it's time for me to cut the cord  
And break free from your claws

I've kept you safe for long  
But now you're on your own  
I've kept you safe for long  
But now you're on your own

But the world is cruel  
For all of those nights  
You left me all alone  
And all of the things you said is up to you

You breed just like an infection  
And you stay forever  
And time is running out  
It's time to say goodbye

Feels like I'm stuck under water  
Keeps pulling me under  
My time is running out  
This really means goodbye

You see me burning baby  
Burning through the sky  
No I don't want you baby  
Let me go

You must fight to stay alive
