

Someday

Chemical Vocation

I think you're ready to move
Your feet are getting lighter each day
Your heart says stay but your mind keeps pushing you away

You're trying hard to let go
But it kills you and your heart screams no
I know it's selfish but you have to let me go

You know what they say
What doesn't kill you makes you stronger
I think it's time to put their words to the test

I never wanted it to end up like this
I can't apologize 'cause our love is gone

The other night we held hands
And gave promises about the future
Then soaked our cheeks as we flooded your apartment

Come on honey let's not look that way
Push it aside and live today
It's gonna turn out fine

I never wanted it to end up like this
I can't apologize 'cause our love is gone

Some day we will find peace you'll see
Some day I swear
Some way, somehow we'll make it out
Some day I swear

Feels like we're running in circles
We've already been here
Like we're running in circles
