

Speeding Heartbeats

Chemical Vocation

You woke me up last night (speeding heartbeats)
With a face to remind me of you
Hard to figure out
If every word we spoke were true

Found my way into the safe ride (safe ride)
Which will take me to the safe side (safe side)

Hold me much closer dear
It's getting colder here (tonight)
I'm ok for you tonight
I'm ok for you tonight

Hold me up again (speeding heartbeats)
And it's constantly haunting me
Every word you said
I can't seem to shake them off

Found my way into the safe ride (safe ride)
Which will take me to the safe side (safe side)

Hold me much closer dear
It's getting colder here (tonight)
I'm ok for you tonight
I'm ok for you tonight

Hold me much closer dear
It's getting colder here
I'm ok for you tonight
I'm ok for you tonight

Hold me much closer dear
It's getting colder here
I'm ok for you tonight
I'm ok for you tonight
