

# Love Story

Chenao

Yeah, c'mon  
mmm... yeah  
aaoh, oh  
ha...

So you said you gonna give it all  
that you'd never ever hold back on me  
but I've been feelin' kind of all alone  
did you forget about our love story

It said boy meets girl and falls  
in a never ending kind of love  
and it seemed like they just couldn't be  
around each other enough

(But then in chapter three  
something happened in the love story)  
and everything seemed out of place  
afraid the past would be erased

(Couldn't find their way to go  
got lost and didn't know)  
that she could trust him with her heart  
that he could trust they'd never apart

Come boy don't you see  
there's no place I'd rather be  
looking my eyes, you know that I'm right  
this is our love story  
just have faith, believe  
you know I'll always be  
here by your side, makin' it right  
this is our love story

Now don't be thinkin' it's a waste of time  
when every little thing don' go your way  
the world don't stop inside  
gotta make it strong everyday  
cause the only thing that's gonna last  
the only thing that's worth to wait  
is keepin' it real, when you're all fed up  
boy you know I wanna say

Don't nobody want to pain  
even though sometime it come your way  
but the truth is if you give respect  
I'll make sure that you gonna get it back  
and if it hurt like hell inside  
and you need a place to hide  
then come to me, come to me  
we will survive

Come boy don't you see  
there's no place I'd rather be  
looking my eyes (my eyes), you know that I'm right (right)
