Grow Up

Cher Lloyd

[Chorus:] We ain't ever gonna grow up We just wanna get down Tell the DJ turn it up real loud No we'll never grow up And if we had our way We would do this everyday (Let's go!) [Cher Lloyd:] I got a flow that'll make you drop I got a flow that'll make you pop I got a flow that'll make your mother and your father call the cops We're gonna make this thing go blow, we've got a system overload We're gonna be the generation that makes everything explode! And I when I say explode I don't mean that we using bombs We doing stuff that we don't ever have to tell our moms Love the stuff we got it, We got it all up in the room Paper chasing, yeah we buying everything we want Somehow, some way We're gonna have it our way We don't give a what, what you say No we don't [Chorus:] We ain't ever gonna grow up We just wanna get down Tell the DJ turn it up real loud No we'll never grow up And if we had our way We would do this everyday We ain't ever gonna grow up We just wanna get down Show everybody who runs this town No we'll never grow up And if we had our way We would do this everyday [Cher Lloyd:] Do ya, do ya, do ya know what I mean I'm a princess, I don't wanna be the queen Please don't say a thing Mr. Bean Every time you talk grrr, it makes me wanna scream I don't know what you heard 'bout me Don't remember holding out my pinky I'm gonna finish off all these MCs Like they were my cup of tea I got a flow that'll make you drop
