

# Killin' It

**Cher Lloyd**

Last night, what was going on?  
Hold tight, only just begun  
All out, blow the party guns  
We the only ones  
Ready, go, go

Face down, wake up somewhere new  
Spaced out, barely made it through  
Every time I get into  
Whatever we do  
Yeah, I'm with you

So, if you had enough  
Dust your shoulders off  
And we can kick it till the night's had enough of us  
And if you didn't know  
I should tell you so and now you know

Don't matter what they say  
'Cos we be killin' it, killin' it, killin' it  
All the way, way  
Okay, yeah we be killin' it, killin' it, killin' it  
All the way, way

Rewind where we started at  
Playback all that we forgot  
You, me, all the shit we got  
Love it at the top  
Ready, get hot

Wild hearts making all mistakes  
Switched on but we're never phased  
Get down, we don't play it safe  
Go out on the blaze  
Live for the day

So, if you had enough  
Dust your shoulders off  
And we can kick it till the night's had enough of us  
And if you didn't know  
I should tell you so and now you know

Don't matter what they say  
'Cos we be killin' it, killin' it, killin' it  
All the way, way  
Okay, yeah we be killin' it, killin' it, killin' it  
All the way, way

[2x]  
Shit, you wanna get with this?  
We up to brand new tricks  
So boy get down to me  
Shit, we on some chronic shit  
You know what this is it  
Why don't you come and play?

Don't matter what they say

'Cos we be killin' it, killin' it, killin' it  
All the way, way  
Okay, yeah we be killin' it, killin' it, killin' it  
All the way, way

Don't matter what they say  
We killin' it, we killin' it, yeah, yeah

Okay,  
We killin' it, we killin' it, yeah

Yeah
