Don't Put It On Me

Cher

Don't put it on me and don't try to take me back
And put me where I was before you found me
Don't do it to me, baby, I can't go and live the way I was
The way I did before you knew me
Baby, don't you know, baby, can't you see it's no the same now?
Everything I was, what I used to be, you went and changed now
Don't put it to me, don't make me bless each day
And live each day and die each day, it's sunny day you knew me
Don't put me through it, don't say you told me
Someday you might leave and that I knew it
Baby, don't you know you open up my soul
And I'll strip myself naked for you?
Once someone does that there's no turning back
And there's no more to do
Don't put it on me and don't try to take me back
And put me where I was before you found me
Don't do it to me, baby, I can't go and live the way I was
Before you knew me
Baby, don't you know you open up my soul
And I'll strip myself naked for you?
Once someone does that there's no turning back
And there's nothing to do
Oh, don't put it on me
Baby, baby, baby, don't put it on me
Oh, don't put it on me
There's no turning back, baby, don't put it on me
Don't, don't, baby, don't put it on me
