

# Starting Over

Cher

Spent a lifetime  
Finally found someone  
Gave him all that I had  
In love till the dream was gone  
I was losing myself  
Out in the darkness alone  
But the night made me strong  
And I learned to let go

Time mends a heart  
You turn the page somehow  
Oh, there's no looking back  
The hurt is behind you now

Starting over again  
From the second time around  
Coming back to win  
Starting over again  
Take the first step  
And let it begin  
Starting over, starting over

Memories haunt you  
Feelings you won't forget  
Learn to live a lesson in love  
Walk away without regrets  
We'll never deny  
Feelings your heart demands  
Ah, find your way out  
Just when you reach the end

Starting over again  
No one's gonna count you out  
When the heat is on  
Starting over again  
Gotta come back and turn it around  
Starting over

Take another look inside  
Where you always have a fight  
Never dream of giving up, never  
No looking back

Starting over again  
From the second time around  
Coming back to win  
Starting over again  
Take the first step  
And let it begin  
Starting over, starting over
