Unappreciated

Cherish

I'm feelin' really unappreciated
You've taken my love for granted, babe
And I don't know how much more
I can take from you

You don't do the things you use to do
You don't even say "I love you too"
And lately I've been feelin'
Feelin' unappreciated

Woke up this morning and saw your face
And you didn't look the same as yesterday
I got the feelin' that you can't seem to see
What you want to be

And lately it ain't been the same at all
When you're here it's like I'm invisible
I still can't seem to see where I went wrong
'Cause I'm feelin'

I'm feelin' really unappreciated
You've taken my love for granted, babe
And I don't know how much more
I can take from you

You don't do the things you use to do
You don't even say "I love you too"
And lately I've been feelin'
Feelin' unappreciated

Lately our house is not a home
You come in, take a shower and then say "I'm gone"
What am I to do? When my heart says leave
But my feet won't move

And today is our anniversary
And you haven't even say two words to me
I'm trying hard to give you another chance
But ooh, baby I'm feelin'

I'm feelin' really unappreciated
You've taken my love for granted, babe
And I don't know how much more
I can take from you

You don't do the things you use to do
You don't even say "I love you too"
And lately I've been feelin'
Feelin' unappreciated

Oh, when I first met you
I thought that you was the most perfect man that I ever seen
And I still don't understand why you treat me like you do
I use to give into your lies but now I see the truth

Oh no, I don't want to hear it, I'm through
Yeah, I know I'll still be missing you

But it's not worth the pain that I've gained from you
You make me feel unappreciated

I'm feelin' really unappreciated
You've taken my love for granted, babe
And I don't know how much more
I can take from you

You don't do the things you use to do
You don't even say "I love you too"
And lately I've been feelin'
Feelin' unappreciated

Don't love me no more
I'm really feelin' unappreciated
I'm feelin' unappreciated
