

# When I Change Your Mind

Cherry Poppin' Daddies

Everything's gonna be nice and sweet  
When I come sweep you off your feet  
You won't think I'm such a creep  
When I change your mind  
I was nice and you were cold  
You were bored when I was bold  
I just want my jellies rolled  
When I change your mind

You don't want me  
At least not in that way  
You don't want me  
And that drives me crazy

Your ignorin' hurts my pride  
Don't you want my pleasure ride  
I've got to have you by my side  
When I change your mind

Now my foolish heart sure don't skip a beat  
When you haul your tired ass across the street  
I'd sell my soul for an airplane seat  
Now that I changed your mind
