

Heart As Cold As Stone

Cherryholmes

You say you've got to leave me, dear
It's hard to say good-bye
But please dear, won't you tell me
Tell me the reason why

The first thing you had told to me
When I first met you there
You said you'd always love me
But now you say you don't care

You'll tear my weary heart apart
And leave me all alone
I'll always remember you, darlin'
And your heart as cold as stone

Good-bye, there's no use in pleadin'
When I know you won't give in
Just let me say I love you
Before the heartache begins

I'll always remember you, darlin'
And your heart as cold as stone
