

My Love For You Grows

Cherryholmes

I'm in love with a lady but the lady don't love me
I can't believe
That after all this time together I'm back on my own
I'm all alone

(Chorus)

Woah like a ship I'm tossed
Woah my heart may be lost
Like a tear in a river that flows
Still my love for you grows

I could fill up an ocean with the tears that I've cried
Lord knows how I tried
But a storm has wrapped around us and covered our hearts
And it's torn us apart

(Chorus)
