

# All The Live Long Day

Cheryl Wheeler

The sun is shinin', makin' this room so bright  
And the cats are sleepin', right up on the table,  
Breakin' all the rules in plain sight.  
There's a cloud colored moon floatin' in the blue  
Not waitin' for the sun to go away  
I just wish I could walk with you and talk with you  
All the live long day

We never really had a winter, it never came and now it's gone  
And the days grow longer, like the late night road  
Like the odds you'll come back home  
But I don't mind wasting my time  
Waitin' for the ache to go away  
I don't mind telling you it's what I do  
All the live long day

All the live long day, I wonder what I'll do  
I don't see no way, of getting over you

The boys were in the back field, sortin' out the who and when  
It's like cat graffiti, but they read it with their nose  
And it's written from the other end  
Though James takes it in with a different spin  
He likes to read the Sniff and Spray  
It's just them and me, and my ennui  
All the live long day

I was watchin' the sunset, wishin' you were watchin' too  
Through the winter branches,  
Drop jaw red, Maxfield parrish blue  
Then a windy night with the stars so bright  
The trees just bow and sway  
I been close to blue and missing you  
All the live long day
