

Every Little Tear

Chesney Hawkes

Every little word you say
Every little breath you steal
Maybe it's a strange reaction
Maybe that's the way I feel
I'll do anything you ask me
Every little thing you say
All I need is your affection

You give me such tenderness
I think I love you
Spend my nights just dreaming of you
Don't you want me, say you need me
Baby, take my hand

Every little tear you cry
Every little heartache in the night
I wanna be there for you baby
I can't stop wanting you

Every little dream you're hiding
Every little hope you hold
I just wanna know about you
Watching everything unfold
Everything a stimulation
Every little thing you touch
Ooh you're so intoxicating

You give me such tenderness
I think I love you
Spend my nights just dreaming of you
Don't you want me say you need me
Baby, take my hand

Every little tear you cry
Every little heartache in the night
I wanna be there for you baby
I can't stop wanting you

Every little tear you cry
Every little heartache in the night
I wanna be there for you baby
I can't stop wanting you
Think about it
You could have everything
Think about it
Don't you know what love can bring
Think about it
I'd hate to see you walk away
Think about it
I can't stop wanting you

Every little tear you cry
Every little heartache in the night
I wanna be there for you baby
I can't stop wanting you
