

One Of Those Days

Chesney Hawkes

Just one of those days, one of those days

I woke up late, crashed my car
Broke a string on my guitar
Then you came round just to say good-bye
I look in the mirror, all I see
Is trouble staring back at me
Maybe I'd do better not to try

It's too late, it's too late to cry

I guess it was just one of those days
One of those days (better to stay in)
I guess it was just one of those days
One of those days

Well the rain is falling on my head
I guess I should have stayed in bed
Instead of wishing I still had you
Maybe you would disagree
But some things are just meant to be
Sometimes there is nothing you can do
It's too late, it's too late to cry

I guess it was just one of those days
One of those days (better to stay in)
I guess it was just one of those days
One of those days
