

# Ordinary Girl

Chesney Hawkes

Wha, wha, oooh  
Wha, wha, oooh

At the end of the day  
When I know that I'm going to meet you  
My heart just can't wait  
So it races as fast as my feet do  
At the very moment, I take your hand and the moment we touch  
I want to tell you how much I care  
But I almost can't speak, cause I love you too much

Chorus:

Ordinary girl, it's an ordinary world we live in  
You make it special every day  
Ordinary girl,  
It's something precious that you're giving  
This ordinary guy is proud to say I'm in love  
I'm in love, I'm in love with an ordinary girl  
Ordinary girl, yeah

Ba da da da (repeated)

Nothing has changed just familiar things all around me  
But nothing's the same, I see with new eyes since you found me  
Even the way that the wind blows cold when we're walking at night  
Just have to hold you close  
You make everything good  
You make everything right
