

Tell Me Something I Don't Know

Chesney Hawkes

(Chesney Hawkes/Nick Kershaw)

It really doesn't matter to me
What was on TV
What was in the headlines

There's nothing I can say
About the weather today, if it's rain or sunshine

It's not that I don't care about you
So open up and put your trust in me

Tell me something I don't know
Tell me about it
Tell me who you want to be
Tell me something I don't know
Come on and shout it
Tell me what you want from me

I really couldn't care much less
For your designer dress and your conversation
I can do without knowing all about
Useless information

Don't misunderstand what I say
Just loosen up and put your faith in me

Tell me something I don't know
Tell me about it
Tell me who you want to be
Tell me something I don't know
Well, come on and shout it
Tell me what you want from me
Think about it
Talk about it
I don't know yeah yeah
Something I don't know
Something I
Something I
I just wanna know about you
So open up put your trust in me

Tell me something I don't know
Tell me about it
Tell me who you want to be
Tell me something I don't know
Come on and shout it
Tell me what you want from me

Tell me something I don't know
Tell me about it
Tell me who you want to be
Tell me something I don't know
Come on and shout it
Tell me what you want from me
Tell me something I don't know.
