

# Under My Breath

Chester See

She comes, she goes  
She lets me know  
Just enough to make me lose control  
She turns back  
Its not for me  
Its just a part of her sympathy

Yeah she goes  
Out of her way something to say  
She doesn't know when she'll see me again  
I reply  
Its fine by me I got plenty of things  
To do in my own so I'll call you soon  
She says  
I had a good time  
So have a goodnight  
She gets in the car  
As soon as she leaves I say  
I love you  
I love you  
I love you  
I love you  
Under my breath, yes I do  
Under my breath

Her eyes and smile they speak the same  
But I've got no clue what they say  
She knows that when she says goodbye  
Or could it be that this is all in my mind

Oh but she goes  
Out of her way something to say  
She doesn't know when she'll see me again  
I reply  
Its fine by me I got plenty of things  
To do in my own so I'll call you soon  
She says  
I had a good time  
So have a goodnight  
She gets in the car  
As soon as she leaves I say  
I love you  
I love you  
I love you  
I love you  
Under my breath, oh its true  
Under my breath

See I got a feeling she knows  
Exactly why this song was composed  
She likes the attention and she wants to be  
Wrapped in somebody's arms  
But that somebody isn't me

Yeah she goes  
Out of her way something to say  
She doesn't know when she'll see me again

I reply  
Its fine by me I got plenty of things  
To do in my own so I'll call you soon  
She says  
I had a good time  
So have a good time  
She gets in the car  
As soon as she leaves I say  
I love you  
I love you  
I love you  
I love you  
Under my breath yeah  
Under my breath yes I do  
Under my breath  
I love you
