

When She Walks Into A Room

Chester See

She walks into the room
and I can't help but notice
when she walks into a room

She speaks to me, and I don't know what to do with my hands so
I
I put them in my pocket and I try my best to understand the words she speaks to me
the language of her eyes but I just can't believe, there's an angel by my side when she walks into the room

intriguing with her eyes
is there something that she hides
cause I can see it in her style
captivated by her smile X4

piano solo

yeah she walks into a room
and you can't help but notice.
