

Who Will Be Our Superhero

Chester See

It's not enough to say we know we messed up
and then just walk away,
so sorry for yesterday.

It just won't do to say we never knew
things would be this way but help is on the way.

I've heard that line before and it was ignored.
Can anybody hear me what are we waiting for?

Who will be our superhero
when things go wrong, you'll save the day!
Who will be our superhero
we need you now to fly us to a better place,
fly us to a better place.

It's just not fair to say that we care
and then just leave behind
problems we can't deny, oh.

It's just not right to say our goodbyes
when it's not time for that.
When will we face the facts?

Hope's around the corner, don't let it fade.
Everybody's waiting, something needs to change.

Who will be our superhero
when things go wrong, you'll save the day!
Who will be our superhero
we need you now to fly us to a better place.

Where we can live in Harmony,
That's where I wanna be
it's what everybody needs,
a place,
where there's no hatred in our hearts,
I know it's not too far,
but only you can take me!

Who will be our superhero
when things go wrong, you'll save the day!
Who will be our superhero
we need you now to fly us to a better place.

Fly us to a better place [x4]

Who will be our superhero?
