

Wicked

Chester See

Don't be a fool by the way she moves
You're dancing with the devil in the pale blue moon
She's wicked, ooh-oooh

Turn and run before it's too late
or six feet under gravel be your rest in place
She's wicked, ooh-oooh

There is silence in her steps
No beating in her chest
Without a sound you know you've been found
When she's breathing down your neck

She is meaner than mean, crueller than cruel
You can't escape, you're never safe
She's play you for the fool

She is colder than cold
Most faithfully feared
Your time is up, you're out of luck
When she whispers in your ear

She's wicked, she's wicked

Cut your losses, give up now
'cause she won't be so gentle when she takes you down
She's wicked, ooh-oooh

Say your prayers if you feel the need
Just don't waste your prayers on a sympathy
She's wicked, ooh-oooh

There's silence in her steps
No beating in her chest
Without a sound you know you've been found
When she's breathing down your neck

She is meaner than mean, crueller than cruel
You can't escape, you're never safe
She's play you for the fool

She is colder than cold
Most faithfully feared
Your time is up, you're out of luck
When she whispers in your ear

She's wicked, she's wicked.
