

Written In The Stars

Chester See

I've waited too long
to write this song
but I'll sing it anyway
I still have things to say
I know that time has passed us by
but you're still on my mind
and I just can't rest
until I've said

You and I
Deserve a try
there ain't nothin I won't do
I know we are
written in the stars

and I was meant to be with you

I finally realized
just how much i need you in my life
and I'll throw stones up at your window
till I'm certain that you know

You and I
Deserve a try
there ain't nothin I won't do
I know we are
written in the stars
and I was meant to be with you

I was meant to be with you
