

# A Miracle

Chevelle

Invasion hold me I could melt  
Just a warning I've been through hell  
Persuasions and holy hell  
If only time would turn its back again

Except for this I would collapse  
Hold onto my other arm  
We'll be living once again  
You'll be standing at the end

Feel the moment  
And imagine this fear is sent  
To gather us off the ledge  
In the moment  
I had to ask you ever see too much  
Yet need these events to be whole

Except for this I would collapse  
Hold onto my other arm  
We'll be living once again  
You'll be standing at the end

Well this has cost us such a miracle  
Well mothers never lie  
And fathers live to tell  
Now drink to us

(Live in the moment)  
And capture us  
(Live in the moment)  
Like northern lights  
(Live in the moment)  
They capture us  
(Live in the moment)  
This year there marching  
I counted ten  
Still won't admit  
So little trust  
Take care this year

Well this has cost us such a miracle  
Cuz mother had to lie  
And father said farewell  
So drink to us

Well this has been yes such a miracle  
Cuz mothers have to lie  
And fathers say farewell  
So drink to us  
Now drink to us
