

## An Island

Chevelle

They said this fun is near the end.  
You've worn out welcome way too fast  
You'd better bite your tongue.

I need an island  
And I need it fast.  
Some little island  
Is all I ask.

To put you on  
To put you on

Stay there don't move  
I think its got fangs.  
Watch if they turn  
Become the villains.

Are you allowed to know?  
Are we allowed to know?  
Are you allowed to know? (2x)

Just an island  
Is all I ask.  
Some little island  
A spark to cast.

To put you on  
To put you on

Force you to go

Some little island  
One little island (2x)

To put you on  
To put you on  
To put you on  
To put you on
