

An Island

Chevelle

They said this fun is near the end.
You've worn out welcome way too fast
You'd better bite your tongue.

I need an island
And I need it fast.
Some little island
Is all I ask.

To put you on
To put you on

Stay there don't move
I think its got fangs.
Watch if they turn
Become the villains.

Are you allowed to know?
Are we allowed to know?
Are you allowed to know? (2x)

Just an island
Is all I ask.
Some little island
A spark to cast.

To put you on
To put you on

Force you to go

Some little island
One little island (2x)

To put you on
To put you on
To put you on
To put you on
