

# Got Burned

Chevelle

Give us a sign  
That part of you lives  
That nobody knows  
Now watch your back in defense dirty fallen egos  
Its Halloween never seen Jedi walls that crawl  
Hold up your hand to the blade say you'll never denounce

Don't get me started on this  
You picked the best of the best of the worst  
Sadly you better expect to get burned  
We got a minute to spend  
And better stand it on end  
I'll never settle I planned to get burned

My sober friends

And yet still  
They're calling us out  
And yet still  
We'll never admit

Don't get me started me on this  
You picked the best of the worst  
Sadly you better expect to get burned  
We got a minute to spend  
And better stand it on end  
I'll never settle I planned to get burned

It took this, stabbed in the back  
It took this, my sober friends  
My sober friends

It took this  
Stabbed in the back

Don't get me started on this  
You picked the best of the best of the worst  
Sadly you better expect to get burned  
We got a minute to spend  
And better stand it on end  
I'll never settle I planned to get burned

(It took this)  
Don't get me started on this  
You picked the best of the best of the worst  
Sadly you better expect to get burned  
(Stabbed in the back)  
We got a minute to spend  
And better stand it on end  
I'll never settle I planned to get burned

It took this  
It took this  
Stabbed in the back  
My sober friends
