

# Last Days

Chevelle

Well it's my last night  
Darwinian nation rules  
She held the vastness close  
And I untied this knot

Glad I caught that witch  
Glad I caught that witch  
Caught it by the tail  
Glad I caught that witch

When it's your last choice drowned  
By any new means these runes  
She sews the rats eyes closed  
Some call it fantasy

Glad I caught that witch  
Glad I caught that witch  
Caught it by the tail  
Glad I caught that witch

A witch  
Gotta get you a witch  
Witch  
Gotta get  
Gotta get

It's my last night  
It's my last night  
It's my last night  
It's my last night

Glad I caught that witch  
Glad I caught that witch  
Caught it by the tail  
Glad I caught that witch

No better  
No better  
No better  
No better than this  
No better  
No better  
No better  
That I caught  
No better  
No better  
No better  
No better than this  
No better  
No better
