

# One Ocean

Chevelle

It's not a new alarm  
That you heard  
But it's like I'm new again  
New in its salt

Realizing  
No illusions as good  
So I made my way to the surf again  
A bit of heaven

Hey  
It's our one ocean  
It's balanced on the edge  
And it's calling you

We met at the tides end  
A baptism so divine  
Like arms all around us  
My answer seems imminent

Well if I don't surface soon I may never  
And say farewell to this odyssey  
A bit of heaven

Hey  
It's our one ocean  
It's balanced on the edge  
And it's calling you  
Hey it's our one ocean  
It's sitting on the edge  
And it's calling you

Hey hey  
It's our one ocean  
It's balanced on the edge  
And it's calling you  
Hey it's our one ocean  
It's sitting on the edge
