

The Fad

Chevelle

Soon the men taste their own normalcy
Ends that day consumed by all
Irrational thoughts depend
Then change their taste

Let's call it change
Let's call it change

What's the fad hail the aces
If you care, if you hate it
What's the fad hail the aces
If you care, if you hate it

I got the violence
I got the violence

True to form, he's blind as his taste for cheat
Hand the bliss, he loves to bend beyond the card
So count us in to that Gucci clan
About face

Let's call it choice
I'll call it a fad

What's the fad hail the aces
If you care, if you hate it
What's the fad hail the aces
If you care, if you hate it

I got the violence
I got the violence
I got the violence
I got the violence

So sell your voodoo
And recognize this
Your last and only score
But you hung up on your strikes

What's the fad hail the aces
If you care, if you hate it
What's the fad hail the aces
If you care, if you hate it

What's the fad
What's the fad
What's the fad
What's the fad I bought it

I got the violence
I got the violence
