

## The Fad

Chevelle

Soon the men taste their own normalcy  
Ends that day consumed by all  
Irrational thoughts depend  
Then change their taste

Let's call it change  
Let's call it change

What's the fad hail the aces  
If you care, if you hate it  
What's the fad hail the aces  
If you care, if you hate it

I got the violence  
I got the violence

True to form, he's blind as his taste for cheat  
Hand the bliss, he loves to bend beyond the card  
So count us in to that Gucci clan  
About face

Let's call it choice  
I'll call it a fad

What's the fad hail the aces  
If you care, if you hate it  
What's the fad hail the aces  
If you care, if you hate it

I got the violence  
I got the violence  
I got the violence  
I got the violence

So sell your voodoo  
And recognize this  
Your last and only score  
But you hung up on your strikes

What's the fad hail the aces  
If you care, if you hate it  
What's the fad hail the aces  
If you care, if you hate it

What's the fad  
What's the fad  
What's the fad  
What's the fad I bought it

I got the violence  
I got the violence
