

Twinge

Chevelle

Was really just a twinge
It wasn't much
I never meant
To get lost

Forever we'll just lay there
Forever we'll just lay here

Count down, count down, count down the hours
Count down, count down, count down the hours
Count down, count down, count down the hours
Count down, count down, count down the hours

Forever we'll just lay there
Forever we'll just lay here

Just a twinge
Waiting for a twinge
Just a twinge
