You can find a nigger chilling, sipping by game polish
Dropy look like he's drippin, wet, I'm about them dollars
Got the champagne pouring you see it and can't ignore it
I'm the papa big out of the bigger bowler that porridge
I'm wearing latest fashion, you fit clashing
Looking through money, yeah I pay the grip for the glasses
Since you ain't involved I guess you're feeling upset
I'm on my job and you're jobless you ain't up next
Give them gas like cars withing the station
I got a million moves to keep you niggers from breaking
Getting I know they told you bout how I go, as low, man blow, red cup sit slow,
You know, that's just how a nigger do it
That's how a nigger ride through the city when I'm cruising, wassup?

Had that work up in the central what you are homie

Like bitch yes sir, ain't I on some shit
Like a fat kid at lunch, ain't I getting chips
The game up, paint wet when I pull up
