

Counting money burning dope  
Shout out my uncle juice

Uh uh, my nigga jerz  
Uh uh should we do it like the shit  
That all niggas we're doing man  
Uh uh is real rap  
Uh fly nigga with a 9 hundred dollar scar no f\*cking  
reason  
F\*ck you yeah

Speed into that money v tweezy no roof own it  
See me in that red cule to coop on me  
Tell me hit to hola you know you that yelling ball  
gangs  
Switching up my style you know niggas for years  
A long change suffer friends you don't speak my talk  
The flag on the left side I know you see the walk  
Some ghetto niggas with some 402s out  
You niggas am I wanna do it we got outies out  
Taylor gang yeah you know my niggas party hard  
Got your bitches titties out and they say...  
All hands from the hood say that's a cool gawl  
I guess they see my jewels when I ride back

Hook:  
Champagne sipping with your bitch she know what's up  
So tell them niggas we don't give a f\*ck  
Now we get enough money so it's kind of hard not to  
notice us  
notice us.. notice us..  
Now paper straight now ain't they fall enough, fall  
enough...  
Yeah uh

40 seconds floor view from the roof  
20 dollars uncle skin white the shoes on the coop  
I got base in my trunk and I ain't talking kickers  
Just came from the connect I'm a young wild nigga  
Back on the... have 5 point... balling ball  
This is way back in I ain't even know what y'all  
A couple niggas from my hood say you don't even grow  
You ever seen my... get a boat  
A couple niggas out here acting they already know  
If I wanna rif like baby I can make it snow  
Do it, do it anywhere that you wanna blow  
What it's my city I can take you where you wanna go

[Hook:]

In due time niggas will understand  
Some difference between us and them  
I don't think it needs an explanation of  
'Cause in due time these niggas will understand of  
Tgod
