

## Salt Air

## Chew Lips

pushing into every corner, yes we do  
climbing walls and running lights we're leaving you  
buy your cars and clean your homes, we'll see you there  
your an ocean and the salt air

don't want nothing but the callousness I had  
and I'm trying all I can to get it back  
on the bridge and its not such a long way down  
sorry officer, we're just fooling around

you've been drinking  
you've been driving  
crashed your car  
said a prayer  
get outside (?)  
and he's not there
