

You'll be the only one
Leading a mile in front
You'll be the guardian
You'll give them what want
You'll be the only one

Nothing's easy that takes the price down
If you need me send up a lone sound
We'll be waiting out in the hallway too

With friends and enemies
And all that's in between
One minute on your knees
The next they're begging please
With friends and enemies

Nothing's easy that takes the price down
If you need me send up a lone sound
We'll be waiting out in hallway too

We can't be saved from what we love
From rabbit holes into kid gloves
Palest earth to darkest thought
We choose the either or

Nothing's easy that takes the price down
If you need me send up a lone sound
We'll be waiting out in the hallway too

Nothing's easy that takes the price down
If you need me send up a lone sound
We'll be waiting out in the hallway too
