

Too Much Talking

Chew Lips

What's happening now we made a truce
What's happening now
Out of nowhere with all to lose
Out of no- horse and leather told a story
Versions seem to be distorted
No one ever listened really
History or heavy breathing

And there's such a thing as too much talking
Take a while to have a think about it
All the comfort of an all time lover
See him in the face of all the others

All over this town with faithless minds
All over this town
I'm being drawn in with pencil lines
I'm being drawn- horse and leather told a story
Versions seem to be distorted
No one ever listened really
History or heavy breathing

And there's such a thing as too much talking
Take a while to have a think about it
All the comfort of an all time lover
See him in the face of all the others
