

# One More Thing

Chiara Civello

Driving around  
A faraway town  
The first drop of clarity  
I finally found  
To call you and tell you no lie

I think you were right  
And i think i was right  
Was easier to break free  
Than to stay and fight  
But now we're apart  
And i hope you don't mind  
That i have

One more thing i can give you  
One more thing  
Would you give me one more night  
And one less regret in my life

Few days ago  
When you hung up the phone  
I asked myself why  
Then i told myself "no!  
the best part of me  
Can't just let this go "

It opened my eyes  
Right as i closed the door  
While careless and careful you  
You built a wall  
Don't worry cause my love  
Can conquer it all
