

Gently I'll Wake You

Chicago

Come to me, baby mine
And I'll make love to you
Just when the sun begins to shine
On the morning dew

I've been gone, far away
The days they seemed like years
Right by your side I'm gonna stay
Kiss away your tears

Gently I'll wake you
I won't hardly shake you
Gently I'll wake you
I won't hardly shake you
And I'll make sweet love to you

Hold me tight, don't let go
We'll dream the whole day through
I missed you more than you could know
I love only you

Come to me, baby mine
And I'll make love to you
Just when the sun begins to shine
On the morning dew

Gently I'll wake you
I won't hardly shake you
Gently I'll wake you
I won't hardly shake you
And I'll make sweet love to you
