

Introduction

Chicago

Hey there everybody
Please don't romp or roam
We're a little nervous
'cause we're so far from home
So this is what to do
Sit back and let us through
And let us work on you

We've all spent years preparing
Before this group was born
With heaven's help it mended
And we do thank the lord

Now we put you through the changes
And turned around the mood
We hope it struck you different
And hope you feel moved
So forget all of your troubles
As we search for something new
And we play for you
