

# Love Lives On

Chicago

What was I to you?  
Maybe to show you,  
How truly beautiful you are.  
Even though you've heard it forever,  
From the right one it's kind of like the weather.  
It becomes the truth.

And what were you to me?  
That is the question that will,  
Truly take forever to explain.  
Just know that what we have in time will travel,  
Things like this, they never quite unravel.  
They weave into our dreams.

Love lives on,  
With or without people in it  
The path it follows has no limit.  
Everything we do,  
Goes beyond  
And even what we leave behind us,  
Someday will come back to find us.  
I'm telling you that we're that strong.  
What we had is never gone  
Love lives on.

What were we to us?  
Something I know that will never,  
Happen in this world again.  
We were more than just each other's,  
Cheap attraction.  
So don't you ever think  
That you were some distraction  
'Cause time will bear to prove

Love lives on,  
With or without people in it  
The path it follows has no limit.  
Everything we do,  
Goes beyond  
And even what we leave behind us,  
Someday will come back to find us.  
I'm telling you that we're that strong.  
What we had is never gone  
Love lives on.

So go on now,  
And know that this is not the end  
Just one more story we'll begin.  
I'll be out  
When you look up at the stars at night  
Just feel me in their faintest light  
'Cause they'll know where I am,  
Always.

Love lives on,  
With or without people in it  
The path it follows has no limit.

Everything we do,  
Goes beyond  
And even what we leave behind us,  
Someday will come back to find us.  
I'm telling you that we're that strong.  
What we had is never gone  
Love lives on. [7x]
