

# Mother

Chicago

Driving down the concrete beams  
Looking around and it now seems  
Mama Earth is nowhere, gone from your eyes  
Hidden in the crust of man's scientific dreams  
She is gone

Natural man took her natural face  
Made it a strange and alien place  
You can't bear to look 'cause she ain't there, hey, hey  
Our Mother has been raped and left to die in disgrace  
She is gone
