

# Never Been in Love Before

Chicago

I've never been in love before not like this you taught me more  
Hung out by myself well I lived upon a shelf and cried  
'Cause I thought I could not give my pride would not let me live  
All my feelings disappeared

You are the lovely reason I am alive you satisfy  
All my senses and you give me the confidence to grow  
In a thousand different ways happy just to spend the days  
Of my lifetime by your side

I want to be everything that I can  
I want so much to be more of a man

I want to grow  
I want to know you better  
Each day I'll try to love you  
'Cause I've never been in love before

You have a friend for life in me if we ever disagree  
And you have to go away I will set you free with joy  
'Cause your happiness is mine may our light forever shine  
May you always feel free

I want to be everything that I can  
I want so much to be more of a man

I want to live  
I want to give my lifetime  
Each day I'll try to love you  
'Cause I've never been in love before
