

What Game Shall We Play Today

Chick Corea

Look around you my people
If you look then you will see
How to love
Life is paradise
All together
What game shall we play today
Man just wants to be happy
Cast off things that shouldn't be
Set him free
Life is paradise
All together
What game shall we play today
There's a way you can find it
It's within you, can't you see
Find the truth - it's not impossible
All together
What game shall we play today
Here we are all together
Free to have and do and be
What we see - for the first time
All together
What game shall we play today
