

Assassinator 13

Chikinki

I'm gonna make my way to the deep underground
Find myself a come down fix
Kicks get me down like a stone in my crown
I'm gonna make my way to the wrong side of town
Found myself a come back kid
To rid these bones of the dirty sounds

Met a girl, on the bus
She had asked to take me on
So lick your ticket and take a ride
Sex is fun when you are high
Ride on ride on ride on

I'm gonna make my way to the deep underground
Find myself a come down fix
Kicks get me down like a stone in my crown
I'm gonna make my way to the wrong side of town
Found myself a come back kid
To rid these bones of the dirty sounds

Time to time you feel you've found
But more and more you long to score
So light, your mouth and shoot your brain
If just to feel the devil's pain
Ride on ride on ride on

Alcohol numbs the soul
It doesn't stop you getting old
So ask the answer to your pain
Oh the sweet bright red chariot that burns away
Ride on ride on ride on
