

# Wonderful

Childish Gambino

We finally made it  
And now we sailin'  
I never dreamed we'd get this far  
My heart keeps asking  
How did it get so wonderful? So wonderful  
How did it get so wonderful? So wonderful

You can call the shots, I'm going to my aunt's house  
What's it all about? Lookin' like I'm Millhouse  
What's it all about? I ain't get my bike back  
I ain't get my bike back, I know where he live at  
I know what he look like, I know what I live like  
Five to a bed, head to toe, that's a good night  
Five to a bed, head to toe, with the fan on  
I don't think these other niggas know what your man on  
I used to have to sneak just to get my food  
Free lunch made it feel like they don't approve  
Sell a car for a dollar used to be the mood  
I wanna be Jabari man that nigga cool  
I wanna lash out nigga keep your cool  
All my friend did was draw something now he outta school  
'Cuz everything was always "Show me what you're made of"  
And everybody knew somebody who was laid up  
I didn't need it, momma said it's a lesson  
Some people will never like you  
Don't let'em catch you stressin'  
You know a code's a code, the world can't stop'em  
Eating out rat holes and Cheerios boxes  
This nigga think he hot shit, he think he good at everything  
I just didn't wanna get left out more  
My little sis' mom got shot, she in the newspaper  
Prayers couldn't save her, she died a day later  
Like my cousin got the HIV  
When she bust the leg open playing jump rope  
Should I tell them kids what the fuck's up?  
They gone judge her and me  
Man fuck them, we livin', all is forgiven  
I fucked up royally  
But now that's who we are man you gotta use the royal "we"  
This is royalty, and this is all I ever wanted 'cuz
