

## Seasons Changing

### Children Collide

Everybody's hooking up for the winter  
They don't want to be alone in the cold  
We all burnt ourselves out in the summer  
Wasted, wasted the spring of our lives  
Season's changing regrets on the other side  
Fall away and climb to safety  
Season's changing regrets on the other side  
Fall away and climb to safety

Everybody's hooking up for the winter  
They don't want to be alone in the cold  
We all burnt ourselves out in the summer  
Wasted, wasted the spring of our lives  
Season's changing regrets on the other side  
Fall away and climb to safety  
Season's changing regrets on the other side  
Fall away and climb to safety

Season's changing regrets on the other side  
Fall away and climb to safety  
Season's changing regrets on the other side  
Fall away and climb to safety
